We release our employees with the duties of acting responsibly in all situations, being reliable at all times, and executing their duties in an ethical and professional manner at all times when they are working in the field as our representatives.

Introduction

At NINI's Security Services, we have decided to build our combined knowledge of the security industry into an effective plan of action that provides solutions for businesses in need of protection.

The alarmingly significant growth in the need for security attributable to international and domestic terrorism and various criminal activities is something that our team is very much aware of, based on years of military service and training.

Our services are customized to both meet and exceed client expectations in the most timely, effective, and proficient way. We have built a competitive edge by providing top-notch security and customer service and also through the offer of assurance. As a relationship-building oriented company, we strive to be regarded as a partner in our clients' businesses, the partner providing security and protection of the client's assets.

As a monitoring partner, we also audit and making an assessment of a client's security situation, and we work closely with them to design and execute achievable plans to upgrade and maintain that security. NNS company has established professional standards that attract, train, and retain outstanding personnel so as to protect you and your clients.

Exceptionally Trained and Rigorously Screened Uniformed Security Professionals

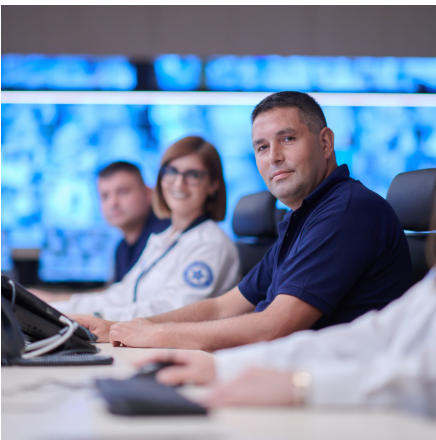

NINS will provide you with certified, licensed, insured, and bonded Security Officers. Each Security Professional has been screened to the standards of the state of Florida.

I. Our pre-employment background a 5-panel drug screening, and extensive in-service training regarding criminal law and police defensive tactics.

II. NINI's Supervisors are on duty 24 hours a day, 365 days per year for your convenience and will regularly make spot checks to prevent the issue of complacency. It is our belief that in order to assure the best quality of service that we stand by, we must keep close relationships with our personnel.

III. All of our security officers will be equipped with two-way radios or equivalent to ensure constant communication with our management team.

IV. Each and every security officer will be in-serviced regularly regarding your specific site to further enhance the protection we provide.

NNS has taken a unique approach to the business of contract security. Many of our competitors employ minimally screened and trained officers. Our approach involves a proactive theory of well-groomed, exceptionally trained, uniformed security officers. Our strategy entails several steps to mitigate the possibility and opportunity for theft of property, or injury to persons within the facility. The following is an overview of our Security Officer Project:

Applicant Screening

V. The quality we bring to your environment begins long before you see our security officers. The Board of Directors at NNS has resolved to make the recruitment and training of our personnel the key to our success; in that, we conduct hiring initiatives on a regular basis with over 250 applicants per month, with an average of 12 new appointees. Most applicants are unable to meet our qualifications, which are equivalent to the United States Government Secret Clearance Program.

Training

NINI's conducts training that exceeds that of any of our competitor's programs. The knowledge of our management team is passed on to our new employees. In addition to the state mandated certification courses, NSS personnel must attend:

- A. 40-hour Police Defensive Tactics Training
- B. 24-hour Patrol Techniques & Criminal Law
- C. 16-hour Customer Service Seminar

Method

VI. Our uniformed security officers/guards are encouraged to be an approachable source of information to patrons, residents and employees. Letting the public know that we are there for them generates a feeling of community and safety.

Patrol

VII. The placement of our security officers is what generally places NSS in the position to confidently describe the implementation of our security guards project as authentic. Our Security officers are trained to make visible foot patrols throughout their posts in undetermined patterns. We encourage our personnel to interact with your patrons and employees in addition to standing a fixed post.

Compliance

NNS has developed a theory of “Enforcement through Reinforcement.” The management, having twenty combined years of security and law enforcement experience, has realized that prevention of crime can be accomplished by utilizing tactical approaches, rather than accusations and the traditional methods of our predecessors. The art of verbal judo is commonplace in our organization and has often been effective in deescalating volatile situations.

Uniforms

VII. Our uniformed security officers are outfitted with police-type uniforms. Our corporate general orders, require that our personnel keep their uniforms pressed and clean at all times. Our female officers are held to the same standard. We pride ourselves on the appearance of our personnel, as they are representing our agency in your facilities.

Supervision

VIII. NNS supervisors are charged with scheduling, assigning security posts, and acting as liaison between the Board of Directors and our client. Supervisory personnel are available to you 24 hours every day in order maintain quality assurance and customer service on behalf of NSS.

24 Hour Customer Service

Our offices are staffed around the clock with customer service representatives for your convenience. While most of our competitors work from their homes, NNS staffs fully functional offices. Our customer service representatives are not salespeople; they are security professionals assigned to light duty or administrative functions. Desk personnel are utilized as watch-commanders with full authority to make supervisory decisions for NSS.

NSS stands above our competitors by providing an open line of communication with our clientele 24/7 365 days per year

Cost

NNS will provide you with a forensic breakdown of our costing specifications. NSS maintains a philosophy that in order to retain the highest quality security professionals in the industry, we must compensate them commensurate to their qualifications. The Board of Directors has resolved to reduce our profit margin rather than decrease a security officer’s salary. Our costing structure provides for a well-paid security professional and a conservative rate to our client.

Liability

NNS maintains insurance that is thirty times the minimum aggregate coverage obtained by most of our competitors. Our Legal Division recommends that in order to protect our assets as well as yours, we must maintain financial security in full force and effect at a level that far exceeds industry standard.

RE-PROPOSAL INFORMATION PACKET

The purpose of this pre-proposal information packet is for our prospective clients to articulate their security needs. Simply put what are your needs? What, where, and why do you need security? The information that you provide us will help us understand your individual, corporate or company's security needs. The information we receive from your organization in this pre-proposal information packet will allow our security professionals to focus on your individual situation and security needs.

Next, if applicable, what are your realistic expectations, desired outcomes and measurable results? What type of business are you? What are the locations, times, dates, or the duration of your security needs? Please take your time and think this information through carefully. Be accurate and specific, and give us as many details as you can. The more we know, the better we can serve you and your security needs. AHPS, is client centered, and we offer a wide range of specialized security services that are individually designed to meet the needs of each client.

The more information that you can provide for us in this pre-proposal information packet, the better we will understand your specific needs. This will allow our experts to address your individual needs, and for us to begin to build a personal, successful, and long lasting working relationship.
